Through his instruction, I read the Federalist Papers and began a lifelong love affair with political theory and the Constitution. I’ve always appreciated the insights I gained under the tutelage of G. Homer Durham. Even today, 50 years later, as I continue my work in the U.S. Senate, and strive to meet the responsibilities of my office, I find that I frequently harken back to the days at the University of Utah and Dr. Durham’s Political Science 1 class, and how applicable and valuable those lessons still are today. “As a child born in Cuba for whom English was a second language, Mr. Swensen not only taught me English, he helped me assimilate to U.S. culture. Today, as a Member of Congress, I still think of Mr. Swensen when I make a speech or write a letter or article. I was fortunate to spend a lot of time with Mr. Swensen because he also coached my basketball team. He is a great teacher and coach, and he is a great man. Rep. Todd Tiahrt (R-KS)

Mr. Jim Prosser
Vermillion High School
Vermillion, SD

“My first quarter in geometry, I had a near failing grade. By the last quarter (sophomore year) I had an ‘A’ because Mr. Prosser took the time to explain geometry to a thick headed farm boy. He taught me for two more years, and in my senior year I was a regional winner in a national math contest. Not bad for a kid who nearly flunked out of sophomore geometry.”

Rep. John F. Tierney (D-MA)

Ms. Ann DiCarlo

Ms. Fran Botton

“I knew she cared about me, wanted me to succeed, pushed me to work hard and do my best, and accepted nothing less than what she knew was possible from her students. When we finished fifth grade and faced the inevitable sadness about leaving a favorite teacher, she announced she was moving up with us to sixth grade and keeping us all together. The two years of continuity helped prepare me for success in secondary school and gave me the emotional support that every child needs as they move into their teen years.”
