

Head Start (HSA section 639)

President's FY 2014 Budget Request

in thousands

Early Head Start-Child Care Partnerships

The 2014 budget includes \$1.4 billion for new Early Head Start – Child Care Partnerships that will expand the availability of early learning programs that meet the highest standards of quality for infants and toddlers, serving children from birth through age three. Funds will be competitively awarded to new and existing Early Head Start programs that partner with child care providers that serve a high proportion of children receiving child care subsidies to provide full-day, full-year high-quality slots that meet the needs of low-income working families, and prepare children for the transition to preschool. This initiative will complement the Preschool for All proposal in the Department of Education budget.
