

Rankings & Estimates

—A Report of School Statistics—

UPDATE

FALL 2005

ABOUT THIS REPORT

This report is an update of data from NEA Research's report, *Rankings & Estimates: Rankings of the States 2004 and Estimates of School Statistics 2005*, based on the latest information provided from state departments of education.

NEA Research collects, analyzes, and maintains data on issues and trends affecting the nation's public education systems and their employees. Direct questions and comments about this report to RankingsEstimates@nea.org.

HIGHLIGHTS BASED ON REPORTS THROUGH AUGUST 2005

Measure	2003-04	2004-05	% change
Average teacher salary (\$)	46,735	47,808	+2.3
Public school enrollment	48,070,309	48,367,410	+0.6
Number of teachers	3,046,554	3,096,286	+1.6
Student-teacher ratio (not class size)	15.8	15.6	-1.0
Current expenditures per student (\$)	8,308	8,618	+3.7
Current expenditures (\$'000)	399,391,340	416,839,227	+4.4
Total expenditures (\$'000) ^a	467,832,082	489,687,594	+4.7
Total revenue (\$'000) ^b	457,726,671	476,569,463	+4.1

^aIncludes capital and interest. ^bLocal, state, and federal; excludes nonrevenue receipts.

WHAT'S INSIDE?

TABLES WITH ANSWERS ON 10 KEY EDUCATION TRENDS FOR PUBLIC K–12 SCHOOLS, 2003 VERSUS 2004

How much, on average, did teachers in each state earn per year?	Table 1
How many students were enrolled in each state?	Table 2
How many teachers were working in each state?	Table 3
What was the student–teacher ratio in each state?	Table 4
How much money, on average, did each state spend per student?	Table 5
How much money did each state spend for <i>operating</i> schools, including salaries, books, heating buildings, and so on?	Table 6
How much money did each state spend in <i>total</i> for schools, including operating expenses, capital outlay, and interest on school debt?	Table 7
How much revenue did school districts receive from <i>state</i> governments?	Table 8
How much revenue did school districts receive from <i>local</i> governments?	Table 9
What were school districts' <i>total</i> revenues?	Table 10

GLOSSARY

Average Salary. The arithmetic mean of the salaries of the group described. That figure is the average gross salary before deductions for Social Security, retirement, health insurance, and so on.

Capital Outlay. An expenditure that results in the acquisition of fixed assets or additions to fixed assets, which are presumed to have benefits for more than one year. It is an expenditure for land or existing buildings, improvements of grounds, construction of buildings, additions to buildings, remodeling of buildings, or initial, additional, and replacement equipment.

Classroom Teacher. A staff member assigned the professional activities of instructing pupils in self-contained classes or courses, or in classroom situations. Usually expressed in full-time equivalents.

Current Expenditures. The expenditures for operating local public schools, excluding capital outlay and interest on school debt. These expenditures include such items as salaries for school personnel, fixed charges, student transportation, schoolbooks and materials, and energy costs.

Current Expenditures per Pupil. The expenditures for operating local public schools, excluding capital outlay and interest on the school debt, divided by the fall enrollment.

Elementary School. A school classified as elementary by state and local practice and composed of any span of grades not above grade 8. A preschool or kindergarten school is included under this heading only if it is an integral part of an elementary school or a regularly established school system.

Fall Enrollment (ENR). Student enrollment on or about October 1. Includes elementary and secondary pupils as well as prekindergarten and kindergarten students whose programs are part of the regular school system and are financed by the school district. Does not include pupils enrolled in grades 13 or 14 (community college).

Interest on School Debt. The amount spent by and for local education agencies for interest payments on bonds and short- and long-term loans. School housing authority interest payments are also included.

K–12. Kindergarten through 12th grade; comprises **Elementary School** and **Secondary School**, as defined in this glossary. Note that the term K–12 is used for convenience of abbreviation in the tables. No change in the meaning of the data is implied. Thus, as is the case for Elementary School, K–12 here may include preschool and/or kindergarten but only if it is an integral part of an elementary school or a regularly established school system.

(GLOSSARY continues on page 8)

* Computed from NEA Research, Estimates databank. The figures are based on reports through August 2005.

* Computed from NEA Research, Estimates databank. The figures are based on reports through August 2005.

Nonrevenue Receipts. The amount received by local education agencies from the sale of bonds and real property and equipment, loans, and proceeds from insurance adjustments.

Pupils Enrolled per Classroom Teacher. The number of students in the fall enrollment divided by the number of classroom teachers. This ratio of students to teachers must not be confused with “Average Class Size,” which is the number of students assigned to a classroom for instructional purposes.

Revenue Receipts. Additions to assets that do not incur an obligation that must be met at some future date and do not represent exchanges of property for money. Assets must be available for expenditures.

School District. An education agency at the local level that exists primarily to operate public schools or to contract for public school services. Synonyms are “local basic administrative unit” and “local education agency.”

Secondary School. A school comprising any span of grades beginning with the next grade following an elementary or middle school (usually 7, 8, or 9) and ending with or below grade 12. Both junior high schools and senior high schools are included.

Student–Teacher Ratio. The number of students in the fall enrollment divided by the number of classroom teachers and other instructional staff. This ratio of students to teachers must not be confused with “Average Class Size,” which is the number of students assigned to a classroom for instructional purposes.

Total Expenditures. Includes all current expenditures, capital outlay, and interest on the school debt.

STATE NOTES

California. Tables 8 and 9 show adjustments to California state and local revenue accounts designed to compensate for prior year transfers. Combined state and local revenue increased 5.3%, from \$54.1 billion to \$57.0 billion.

Nevada. Nevada’s average teacher salary reporting *does not* include the 10.125% employee portion of retirement payments as required for Nevada legislative reporting.

New Hampshire. School revenues became more state-based and less local-based between 2004 and 2005. See Tables 8 and 9.

New York. In Table 1, “Average Salaries (\$) of Public School Teachers, 2004-05 and 2003-04 (Revised),” New York state DOE reports median salary.

Vermont. School revenues became more state-based and less local-based between 2004 and 2005. See Tables 8 and 9.
