\* Consolidated Appropriations Act, 2010 (H.R. 3288, Public Law 111-117).

\*\* For state-administered programs, estimates by congressional district are net of state administrative costs and state-level activities. As a result, the sum of all districts in a state will not equal the state total. This applies to at-large districts as well. The difference will be the amount retained by the state for its own purposes, as authorized.

Source: derived by the NEA from U.S. Department of Education and U.S. Department of Health & Human Services state allocations using a statistical model.

[1] Elementary & Secondary Education Act (currently reauthorized as the No Child Left Behind Act of 2001, Public Law 107-110).

[2] Individuals with Disabilities Education Act (currently authorized as the Individuals with Disabilities Improvement Act of 2004, Public Law 108-446).

[3] Career and Technical Education Act (currently authorized as the Carl D. Perkins Career and Technical Education Act of 2006, Public Law 109-270).

[4] Higher Education Act (currently authorized as the Higher Education Opportunity Act, Public Law 110-315).

[5] Not available (n/a). State educational agencies make awards to local educational agencies with schools identified for improvement, corrective action, or restructuring.

[6] Estimates include formula sub-grants only and exclude competitive awards to high-need local educational agencies. Formula distributed sub-grants represent half of all funds available under the program.

[7] Not available (n/a). State educational agencies make awards to local educational agencies and other eligible entities on a competitive basis.

[8] Estimates reflect grants under the Small, Rural School Achievement Program (Subpart 1) only. Grants under the Rural and Low-Income School Program (Subpart 2) are not available (n/a). Grants under Subpart 1 represent half of all funds available under ESEA VI-B. Not all congressional districts receive grants under Subpart 1.

[9] Estimates exclude funds reserved for local educational agencies that have experienced a significant increase in immigrant students over the preceding two years. Funds for this purpose represent about 15 percent of the total.

[10] Estimates exclude state-directed awards to local educational agencies for special circumstances as authorized, which represent no more than 10 percent of the total.

[11] Reflects the program's estimated cost, and includes new appropriations plus the use of all or a portion of accumulative surplus of unobligated balances.

\* For state-administered programs, estimates by congressional district are net of state administrative costs and state-level activities. As a result, the sum of all districts in a state will not equal the state total. This applies to at-large districts as well. The difference will be the amount retained by the state for its own purposes, as authorized.

Source: derived by the NEA from U.S. Department of Education and U.S. Department of Health & Human Services state allocations using a statistical model.

[1] Elementary & Secondary Education Act (currently reauthorized as the No Child Left Behind Act of 2001, Public Law 107-110).

[2] Individuals with Disabilities Education Act (currently authorized as the Individuals with Disabilities Improvement Act of 2004, Public Law 108-446).

[3] Career and Technical Education Act (currently authorized as the Carl D. Perkins Career and Technical Education Act of 2006, Public Law 109-270).

[4] Higher Education Act (currently authorized as the Higher Education Opportunity Act, Public Law 110-315).

[5] No specific authorization of appropriations is provided under the No Child Left Behind Act in fiscal year 2010. Estimates are based on the fiscal year 2007 authorization, the most recent year for which a specific authorization is provided in law.

[6] Not available (n/a). No specific authorization of appropriations is provided under the No Child Left Behind Act in fiscal year 2010. An authorization of appropriations of \$500 million was provided in fiscal year 2002 only. Beginning in fiscal year 2009, appropriation levels have exceeded the 2002 authorization.

[7] No specific authorization of appropriations is provided under the No Child Left Behind Act. Estimates are based on the U.S. Department of Education's calculation of the cost of funding maximum payments.

[8] No specific authorization of appropriations is provided under the No Child Left Behind Act in fiscal year 2010. Estimates are based on the fiscal year 2002 authorization, the most recent year for which a specific authorization is provided in law.

[9] Estimates include formula sub-grants only and exclude competitive awards to high-need local educational agencies. Formula distributed sub-grants represent half of all funds available under the program.

[10] Not available (n/a). State educational agencies make awards to local educational agencies and other eligible entities on a competitive basis.

[11] Estimates reflect grants under the Small, Rural School Achievement Program (Subpart 1) only. Grants under the Rural and Low-Income School Program (Subpart 2) are not available (n/a). Grants under Subpart 1 represent half of all funds available under ESEA VI-B. Not all congressional districts receive grants under Subpart 1.

[12] Estimates exclude a 20 percent reserve for Governors to administer. Governors use their reserve to award competitive grants and contracts to local entities.

[13] Estimates exclude funds reserved for local educational agencies that have experienced a significant increase in immigrant students over the preceding two years. Funds for this purpose represent about 15 percent of the total.

[14] Estimates are based on the program's authorization of appropriations in fiscal year 2010 under the Individuals with Disabilities Education Improvement Act of 2004.

[15] No specific authorization of appropriations is provided in fiscal year 2010 under the Carl D. Perkins Career and Technical Education Improvement Act of 2006. Estimates are based on restoring funding to its peak level historically on an inflation-adjusted basis. Estimates exclude state-directed awards to local educational agencies for special circumstances as authorized, which represent no more than 10 percent of the total.

[16] Estimates are based on the program's authorization of appropriations in fiscal year 2010 under the Higher Education Opportunity Act of 2008. Estimates reflect the program's estimated cost, and include new appropriations plus the use of all or a portion of accumulative surplus of unobligated balances.

[17] No specific authorization of appropriations is provided under the Higher Education Opportunity Act of 2008. Estimates are based on the fiscal year 1999 authorization level adjusted for inflation.

[18] Estimates are based on the program's authorization of appropriations in fiscal year 2010 under the Improving Head Start for School Readiness Act of 2007 (P.L. 110-134).

\* American Recovery and Reinvestment Act (ARRA) of 2009 (Public Law 111-5).

\*\* For state-administered programs, estimates by congressional district are net of state administrative costs and state-level activities. As a result, the sum of all districts in a state will not equal the state total. This applies to at-large districts as well. The difference will be the amount retained by the state for its own purposes, as authorized.

Source: derived by the NEA from U.S. Department of Education and U.S. Department of Health & Human Services state allocations using a statistical model.

[1] Elementary & Secondary Education Act (currently reauthorized as the No Child Left Behind Act of 2001, Public Law 107-110).

[2] Individuals with Disabilities Education Act (currently authorized as the Individuals with Disabilities Improvement Act of 2004, Public Law 108-446).

[3] Career and Technical Education Act (currently authorized as the Carl D. Perkins Career and Technical Education Act of 2006, Public Law 109-270).

[4] Higher Education Act (currently authorized as the Higher Education Opportunity Act, Public Law 110-315).

[5] Not available (n/a). State educational agencies make awards to local educational agencies with schools identified for improvement, corrective action, or restructuring.

[6] Estimates include formula sub-grants only and exclude competitive awards to high-need local educational agencies. Formula distributed sub-grants represent half of all funds available under the program.

[7] Includes the Small, Rural School Achievement Program (Subpart 1) and the Rural and Low-Income School Program (Subpart 2).

[8] Reflects the program's estimated cost; and includes new appropriations from the Omnibus Appropriations Act, 2009 (Public Law 111-8), plus the use of all or a portion of accumulative surplus of unobligated balances.

[9] Reflects initial funding for Head Start and Early Head Start expansion only.

For more information, contact Tom Zembar at 202.822.7109 or TZembar@nea.org. As of December 16, 2009.

\* Omnibus Appropriations Act, 2009 (Public Law 111-8).

\*\* For state-administered programs, estimates by congressional district are net of state administrative costs and state-level activities. As a result, the sum of all districts in a state will not equal the state total. This applies to at-large districts as well. The difference will be the amount retained by the state for its own purposes, as authorized.

Source: derived by the NEA from U.S. Department of Education and U.S. Department of Health & Human Services state allocations using a statistical model.

[1] Elementary & Secondary Education Act (currently reauthorized as the No Child Left Behind Act of 2001, Public Law 107-110).

[2] Individuals with Disabilities Education Act (currently authorized as the Individuals with Disabilities Improvement Act of 2004, Public Law 108-446).

[3] Career and Technical Education Act (currently authorized as the Carl D. Perkins Career and Technical Education Act of 2006, Public Law 109-270).

[4] Higher Education Act (currently authorized as the Higher Education Opportunity Act, Public Law 110-315).

[5] Not available (n/a). State educational agencies make awards to local educational agencies with schools identified for improvement, corrective action, or restructuring.

[6] Estimates include formula sub-grants only and exclude competitive awards to high-need local educational agencies. Formula distributed sub-grants represent half of all funds available under the program.

[7] Not available (n/a). State educational agencies make awards to local educational agencies and other eligible entities on a competitive basis.

[8] Estimates reflect grants under the Small, Rural School Achievement Program (Subpart 1) only. Grants under the Rural and Low-Income School Program (Subpart 2) are not available (n/a). Grants under Subpart 1 represent half of all funds available under ESEA VI-B. Not all congressional districts receive grants under Subpart 1.

[9] Estimates exclude a 20 percent reserve for Governors to administer. Governors use their reserve to award competitive grants and contracts to local entities.

[10] Estimates exclude funds reserved for local educational agencies that have experienced a significant increase in immigrant students over the preceding two years. Funds for this purpose represent about 15 percent of the total.

[11] Estimates exclude state-directed awards to local educational agencies for special circumstances as authorized, which represent no more than 10 percent of the total.

[12] Reflects the program's estimated cost, and includes new appropriations as well as funds from the American Recovery & Reinvestment Act (ARRA) of 2009 (Public Law 111-5) plus the use of all or a portion of accumulative surplus of unobligated balances.

For more information, contact Tom Zembar at 202.822.7109 or TZembar@nea.org. As of December 16, 2009.

Source: derived by the NEA from U.S. Department of Education and U.S. Department of Health & Human Services state allocations using a statistical model.

\* For state-administered programs, estimates by congressional district are net of state administrative costs and state-level activities. As a result, the sum of all districts in a state will not equal the state total. This applies to at-large districts as well. The difference will be the amount retained by the state for its own purposes, as authorized.

\*\* A negative amount indicates a shortfall in funding under the FY 2010 appropriation compared to the FY 2010, or most recent, authorization.

[1] Elementary & Secondary Education Act (currently reauthorized as the No Child Left Behind Act of 2001, Public Law 107-110).

[2] Individuals with Disabilities Education Act (currently authorized as the Individuals with Disabilities Improvement Act of 2004, Public Law 108-446).

[3] Career and Technical Education Act (currently authorized as the Carl D. Perkins Career and Technical Education Act of 2006, Public Law 109-270).

[4] Higher Education Act (currently authorized as the Higher Education Opportunity Act, Public Law 110-315).

[5] Not available (n/a). State educational agencies make awards to local educational agencies with schools identified for improvement, corrective action, or restructuring.

[6] Not applicable (n/a). Not all districts receive payments.

[7] Estimates include formula sub-grants only and exclude competitive awards to high-need local educational agencies. Formula distributed sub-grants represent half of all funds available under the program.

[8] Not available (n/a). State educational agencies make awards to local educational agencies and other eligible entities on a competitive basis.

[9] Estimates reflect grants under the Small, Rural School Achievement Program (Subpart 1) only. Grants under the Rural and Low-Income School Program (Subpart 2) are not available (n/a). Grants under Subpart 1 represent half of all funds available under ESEA VI-B. Not all congressional districts receive grants under Subpart 1.

[10] Estimates exclude a 20 percent reserve for Governors to administer. Governors use their reserve to award competitive grants and contracts to local entities.

[11] Estimates exclude funds reserved for local educational agencies that have experienced a significant increase in immigrant students over the preceding two years. Funds for this purpose represent about 15 percent of the total.

[12] Estimates exclude state-directed awards to local educational agencies for special circumstances as authorized, which represent no more than 10 percent of the total.

[13] Reflects the program's estimated cost, and includes new appropriations plus the use of all or a portion of accumulative surplus of unobligated balances.

For more information, contact Tom Zemar at 202.822.7109 or TZemar@nea.org. As of December 16, 2009.

Source: derived by the NEA from U.S. Department of Education and U.S. Department of Health & Human Services state allocations using a statistical model.

\* For state-administered programs, estimates by congressional district are net of state administrative costs and state-level activities. As a result, the sum of all districts in a state will not equal the state total. This applies to at-large districts as well. The difference will be the amount retained by the state for its own purposes, as authorized.

\*\* A positive amount represents an increase in funding under FY 2010 appropriations compared to FY 2009. A negative amount represents a decrease in funding under FY 2010 appropriations compared to FY 2009.

[1] Elementary & Secondary Education Act (currently reauthorized as the No Child Left Behind Act of 2001, Public Law 107-110).

[2] Individuals with Disabilities Education Act (currently authorized as the Individuals with Disabilities Improvement Act of 2004, Public Law 108-446).

[3] Career and Technical Education Act (currently authorized as the Carl D. Perkins Career and Technical Education Act of 2006, Public Law 109-270).

[4] Higher Education Act (currently authorized as the Higher Education Opportunity Act, Public Law 110-315).

[5] Not available (n/a). State educational agencies make awards to local educational agencies with schools identified for improvement, corrective action, or restructuring.

[6] Estimates include formula sub-grants only and exclude competitive awards to high-need local educational agencies. Formula distributed sub-grants represent half of all funds available under the program.

[7] Not available (n/a). State educational agencies make awards to local educational agencies and other eligible entities on a competitive basis.

[8] Estimates reflect grants under the Small, Rural School Achievement Program (Subpart 1) only and exclude grants under the Rural and Low-Income School Program (Subpart 2). Grants under Subpart 1 represent half of all funds available under ESEA VI-B. Not all congressional districts receive grants under Subpart 1.

[9] Estimates exclude a 20 percent reserve for Governors to administer. Governors use their reserve to award competitive grants and contracts to local entities.

[10] Estimates exclude funds reserved for local educational agencies that have experienced a significant increase in immigrant students over the preceding two years. Funds for this purpose represent about 15 percent of the total.

[11] Estimates exclude state-directed awards to local educational agencies for special circumstances as authorized, which represent no more than 10 percent of the total.

[12] Reflects the program's estimated cost, and includes new appropriations plus the use of all or a portion of accumulative surplus of unobligated balances.

For more information, contact Tom Zembar at 202.822.7109 or TZembar@nea.org. As of December 16, 2009.

Source: NEA based on participation and other data from the U.S. Department of Education, U.S. Department of Health and Human Services, U.S. Census Bureau, and other sources.

[1] Elementary & Secondary Education Act (currently reauthorized as the No Child Left Behind Act of 2001, Public Law 107-110).

[2] Individuals with Disabilities Education Act (currently authorized as the Individuals with Disabilities Improvement Act of 2004, Public Law 108-446).

[3] Career and Technical Education Act (currently authorized as the Carl D. Perkins Career and Technical Education Act of 2006, Public Law 109-270).

[4] Higher Education Act (currently authorized as the Higher Education Opportunity Act, Public Law 110-315).

[5] Not applicable (n/a). No specific authorization is provided in the No Child Left Behind Act in fiscal year 2010. An authorization of appropriations of \$500 million was provided in fiscal year 2002 only. Beginning in fiscal year 2009, appropriation levels have exceeded the 2002 authorization.

[6] Not applicable (n/a) applies to congressional districts that do not receive funding.

[7] Reflects the additional teachers that could not be hired to reduce class size as a result of the shortfall in funding under the FY 2010 appropriation compared to the authorization of appropriations.

[8] Not available (n/a). State educational agencies make awards to local educational agencies and other eligible entities on a competitive basis.

[9] Estimates reflect students underserved under the Small, Rural School Achievement Program (Subpart 1) only. Students underserved under the Rural and Low-Income School Program (Subpart 2) are not available (n/a). Funding under Subpart 1 represents half of all funds available under ESEA VI-B. Not all congressional districts receive grants under Subpart 1.

[10] Not applicable (n/a). No specific authorization is provided in the No Child Left Behind Act in fiscal year 2010. An authorization of appropriations of \$750 million was provided in fiscal year 2002 only. Funding under the FY 2010 appropriation equals the 2002 authorization.

[11] Represents eligible children that would not be served as a result of the shortfall in funding under the FY 2010 appropriation compared to the authorization of appropriations.
