UNITED STATES SENATE
November 2013

EARLY CHILDHOOD EDUCATION

- **S. 1697 - Strong Start for America’s Children Act**, introduced by Sen. Harkin [D-IA] - The early childhood education proposal is a 10-year initiative to expand and improve early learning opportunities for children across the birth to age 5 continuum. The bill would fund preschool for 4-year old children from families earning below 200% of the Federal Poverty Level (FPL), and encourage states to spend their own funds to support preschool for young children with family incomes above that income level. The legislation would establish a new federal-state partnership with formula funding for 4-
year old preschool, with a state match, to all eligible states, based on each state’s proportion of 4-year olds under 200% of the FPL. States would provide sub-grants to high-quality, local providers, including local educational agencies (LEAs) and community-based providers (such as child care and Head Start programs) that have partnerships with LEAs. The bill also authorizes a new Early Head Start partnership with child care to improve the quality of care for infants and toddlers.

S. 1291 would also require each state school improvement plan to include a plan for strengthening family engagement in education.

- **S. 1523 - Rebuilding America's Schools Act**, introduced by Sen. Rockefeller [D-WV] - amends the Internal Revenue Code, with respect to tax-exempt bond funding for educational facilities, to: (1) reinstate the national qualified school construction bond limitation amount for calendar years after 2013, (2) make permanent the qualified zone academy bond (QZAB) limitation amount, (3) permit private entities to waive the 10% matching requirement for QZABs, and (4) revise the definition of QZAB for purposes of the credit for issuers of qualified tax credit bonds.
