

I have been an active Student Program member from Virginia since the first day of my freshman year. I am currently a rising senior at Virginia State University, where I am going into my second year as our local chapter President. I have served on the Student Virginia Education Association executive board as Secretary. I am currently serving as a Student Director and have experienced and learned more than I ever thought possible. Through the leadership positions I have held in the student program, I have learned about the issues we face at the local, state, and national level. I am heavily aware of current issues in education, in general, across the country. I am passionate about equality in education and in advocacy for our children. I know I have the passion and capability to continue representing the student program on the national level. I look forward to being able to guide the new board of directors as well as being able to learn from them, if given the opportunity.
