

# Trump/DeVos Budget Plan: Less for Public Schools, More for Private School Vouchers

## Major Education Programs Proposed for Elimination or Deep Cuts and the Impact by State and by Selected School District and Institution of Higher Education

The Trump/DeVos fiscal year 2018 budget request for the Education Department includes the elimination of three formula-allocated state grant programs, partly to pay for private school vouchers. The three programs are: Supporting Effective Instruction State Grants (ESEA Title II, Part A), 21st Century Community Learning Centers State Grants (ESEA Title IV, Part B), and Federal Supplemental Educational Opportunity Grants (HEA IV-A-3). In addition, the proposal cuts Federal Work-Study (HEA IV-C) funding almost in half. The accompanying table illustrates the loss in federal dollars based on current funding levels by state and for selected school districts and institutions of higher education. The White House says its intent is to create a leaner, more efficient government that does more with less of taxpayers' hard-earned dollars. When it comes to federal education programs, however, the proposed budget does less in public schools with fewer dollars while transferring taxpayers' hard-earned dollars to private schools through vouchers.

Source: NEA calculations using data from the U.S. Department of Education's Budget Service and Office of Federal Student Aid, Information for Financial Aid Professionals (IFAP). Estimates are preliminary and will be updated as the Department updates its state allocations. Estimates by school district are from State departments of education and reflect current funding amounts. Estimates by institution of higher education are from IFAP's Notification of Campus-Based Funding for the 2016-2017 Award Year.
