

BULLYING AND SEXUAL HARASSMENT PREVENTION AND INTERVENTION TRAINING PROGRAM

Recognizing the pervasive role bullying plays in the lives of today's students, NEA offers a national program to engage members in bullying prevention—providing members with resources and skills to prevent student-to-student bullying, cyberbullying, sexual harassment, and sexting. The Bullying and Sexual Harassment Prevention and Intervention Program offers three different sessions:

- **Bullying Awareness** (1 hour minimum) — An awareness workshop introduces participants to NEA's Bully Free Awareness Kit, which covers three inclusive topics: What is Bullying? How Do I Intervene?, and How Do I Advocate?
- **Understanding Bullying and Sexual Harassment** (2 hours minimum) — An interactive workshop explores four interrelated topics (bullying, sexual harassment, cyber bullying, and sexting), examines the relevance of federal and state laws and policies, and shares key resources and prevention strategies.
- **Tailored Seminars** (2 hours minimum to 2 days maximum) — Longer seminars are geared to a specific audience (e.g., education support personnel), unique issues (e.g., cyberbullying), and/or local need (e.g., planning a school-wide approach to bullying prevention). The expanded use of interactive learning and planning tools embeds knowledge and leads to enhanced follow through.
