The United Voice for Urban Concerns: Promoting quality teaching and learning in urban public schools
What is NCUEA?
NCUEA is a council of local affiliates of the National Education Association dedicated to strengthening member advocacy and moving the NEA to be more responsive to member needs. Specific objectives are:

- To speak with a common voice on all matters affecting urban education
- To improve the structure, processes, and workings of NEA in order to ensure the full and effective participating of all urban members
- To develop programs which, when implemented by NEA, will have positive impact on the problems faced by urban educators
- To develop and provide appropriate training for urban educators
- To identify and support candidates for NEA offices who will actively work for implementation of NCUEA-adopted programs and positions.

What Can NCUEA Do For Your Local?
- Provide training for your local’s leadership to help make your local a stronger advocate for your members
- Provide an avenue by which your local’s concerns and problems can be shared with other local associations seeking solutions
- Provide a vehicle for your local’s input into the NEA through a United Voice
- Provide ongoing information to your local on developments at NEA affecting your local through the NCUEA newsletter and other venues.

NCUEA Meetings
There are two general membership meetings of the NCUEA each year:

- The Fall Conference is dedicated to the training of presidents and leaders of large locals.
- The Summer Conference is devoted to debating and making decisions on matters of special concern to urban associations which will come before the NEA-RA.

In addition to these general membership meetings, NCUEA members regularly provide input on matters of urban needs to the NEA Program and Budget Committee during the NEA Regional Conferences.
