

**ESSER**

Allocations to LEAs in Oregon

*Across all three federal laws (CARES, CRRSA, and ARP), SEAs must use at least 90 percent of their grant awards to make subgrants to LEAs in proportion to the amount of funds that each LEA received under Title I, Part A in the most recent fiscal year.*

*minimum ODE distribution to LEAs*

ESSER I Fund	\$108,989,117
ESSER II Fund	449,238,502
ARP ESSER Fund	1,008,925,861
<b>Total, ESSER</b>	<b>\$1,567,153,480</b>

**GEER**

Allocations to Oregon

*Both the CARES Act and CRRSA Act provided funding to Governors through the Governor’s Emergency Education Relief (GEER) Fund. The U.S. Department of Education is required to allocate 60 percent of the funds based on each state’s relative population of individuals aged 5 through 24, and 40 percent based on each state’s relative number of children counted under the Title I, Part A formula.*

GEER I Fund	\$32,507,956
GEER II Fund	14,172,115
<b>Total, GEER</b>	<b>\$46,680,071</b>

GEER funds may be used by the Governor of Oregon in support of public elementary and secondary education, institutions of higher education (IHEs), or other education-related entities. A Governor has wide discretion in determining the entities in the State that will receive GEER funds. A Governor can choose to fund only LEAs, only IHEs, only education-related entities, or any combination of eligible entities.

**GEER II FUND: Oregon Department of Education**

37,697,534

Program	Purpose	Allocation
<i>Emergency Assistance for Non-Public Schools</i>	Federally-mandated emergency funding to provide direct grants or services to private schools.	27,395,419
<i>Internet Connectivity and IT Infrastructure for Public Schools and Early Learning Programs</i>	ODE used \$20 million of GEER I to provide comprehensive distance learning (CDL) grants to support online learning for the current school year. While ODE believes that many of the short term needs of CDL are being met with these resources, there still is a high need for adequate internet connectivity in school districts across the state that lack permanent solutions. This could include either leveraging additional federal programs (E-Rate) or directly funding connectivity projects. While the goal of Oregon is to get students back in the classroom, the need for higher quality connectivity in rural and remote areas of the state is critical now and into the future.	10,102,115
<i>Administration</i>	Set-aside for ODE to administer GEER Fund.	200,000

**GEER II FUND: Higher Education Coordinating Commission 4,070,000**

Program	Purpose	Allocation
<i>Oregon Youth Corps (OYC) Summer Programs</i>	<p>Purpose of funding is to support Oregon Youth Corps Summer Program (OYC). This program engages youth—particularly those who are disadvantaged or at-risk—in paid, community-based stewardship experiences that build and improve social, emotional, and workplace skills. Historically, the program has been unable to serve all interested youth, and is in jeopardy because of falling Lottery Amusement Tax Device revenues related to the COVID-19 pandemic.</p> <p>Program participants primarily include youth of color, youth from rural communities, tribal youth, and youth that have dropped out of high school. The objective of this investment is to grant funding to each of Oregon’s 36 counties and all nine federally recognized tribes.</p>	500,000

<p><i>Open Educational Resources</i></p>	<p>Purpose of funding is to develop Open Educational Resources in partnership with public universities, community colleges, and private colleges. Program is focused on achieving four goals: (1) translate OER student resources (<i>Blueprint for Success in College &amp; Career</i>) into languages other than English; (2) develop licensed courses that are accessible and address various learning styles; (3) expand Statewide Equity and Open Education Faculty Cohorts (professional development/training); and, (4) develop Criminal Justice and Human Development/Family Studies pathway materials.</p>	<p>1,200,000</p>
<p><i>Targeted Retention Initiative</i></p>	<p>Purpose of funding is to ensure that students are fully informed of options and resources to assist them to return to school and complete their studies. HECC will provide grants to colleges and university financial aid departments to hire work study students to conduct student outreach, or otherwise defray costs related to enrollment trend analysis. Outreach would be focused on determining root causes and offering both existing financial aid resources and emergency financial aid grants to students depending on need.</p>	<p>1,000,000</p>
<p><i>Benefits Navigator Grants</i></p>	<p>Purpose of funding is to connect students to critical services to meet their food, housing, child care, and other basic needs. Funding to be used to enable benefits navigators to develop an on-site/campus presence (or through on-line programs) and to target the information to the specific needs of students while not incurring the expense of recreating the services. HECC will provide grants to colleges and universities to contract, hire, or supplement existing information and referral efforts to counsel students regarding available resources to assist them.</p>	<p>1,000,000</p>
<p><i>Emergency Financial Aid to Students at Private Non-Profit Colleges</i></p>	<p>Purpose of funding is to provide grants to students with short-term financial challenges such as making payments for child care, health costs, and rent that threaten to jeopardize the students' ability to continue their studies and/or complete their degree. These funds are targeted to expand eligibility to the emergency financial aid for students that was provided to public college students in the first round of GEER funding to eligible, low-income students who are enrolled in private, non-profit colleges and universities.</p>	<p>170,000</p>

<p><i>Talent, Innovation, Equity (TIE) Grant Expansion</i></p>	<p>As part of a Lumina TIE grant initiative, HECC was able to identify five promising proposals; however, it was only able to make two complete awards and one partial award to partnerships including educational institutions and community-based organizations who are working on eliminating growing disparities in completion rates between the overall population and African American, Latino, and American Indian students. GEER2 Funding would enable us to offer a second round of funding and fully fund all five of the top Talent, Innovation, and Equity proposals.</p>	<p><i>200,000</i></p>
