Paid for by the committee to elect Sabreena Shaller

Hello there!

I am Sabreena Shaller, an aspiring educator from Pennsylvania. I recently graduated from Millersville University, earning a bachelor's degree in Early Childhood Education (PreK-4) and Special Education (PreK-8).

During my freshman year I joined my university's chapter of Student PSEA, where I assumed the positions of chapter secretary and president. In Pennsylvania, I have held the positions of Southern Region President, State President-Elect, and President. At the national level, I currently serve on the Advisory Committee for Aspiring Educators for our program.

My time within the union has shown me the power of a collective and I am empowered to continue the fight alongside the NEA. I will use my voice and our vision to continue leading with aspiring educators across this country. We need to dismantle the systemic barriers in our teacher preparation programs and create an attractive profession. **Public education is the cornerstone of our communities and we must fight to ensure all students have access to the greatest tool in the world--knowledge.**

Together, we will use our voices to fight for the safe and just education system that we know our students, colleagues, communities, and aspiring educators deserve.

*Together we will*

**ACTIVATE, EDUCATE, & ADVOCATE**

*for a safe and just education system*
