Dear Community Partner:

Los Angeles is a city divided. As a tiny number of wealthy elite get richer, most of us get left behind. Income inequality is rising and the middle class is disappearing.

At the root of it all is corporate greed.

Big banks and corporations are ripping off LA at our expense. They don't care about our communities and they don't pay their fair share. We think that if city workers and community members unite to lift up LA, we can turn things around.

Do you agree? We want to hear from you.

This Community Survey contains a series of statements about what it's like to live in LA and in your neighborhood, in particular. Let us know how you feel about each of them. Please only mark one choice for each statement.

Thank you for your time and commitment to improving the lives of working people in Los Angeles.
