

OUR *Voice.* OUR **POWER.** OUR **UNION.**

OUR VOICE. OUR POWER. OUR UNION.

Think about the changes you want to make on campus. Whether it's securing fair pay and reasonable workloads, protecting academic freedom, or improving access to tenure and promotion systems, we can do it together—through our union.

When you join NEA Higher Ed, which represents more than 200,000 faculty, staff, and graduate employees on public and private campuses, your voice becomes stronger, and our union becomes more powerful.

In addition to the support from your local and state affiliates, NEA's organizers, researchers, analysts, lobbyists, and attorneys offer resources that you and your colleagues can use to make significant changes on campus—for the better. We also offer training and workshop opportunities on trends in higher education that connect you to resources so you and your colleagues can make improvements and build the voice of academic workers at your institution.

In our union, we have each other's backs and the common good at the center of everything we do, but we need your voice. Join NEA Higher Ed today.

Ask me more about our union. Here's my contact information:
