

# 2026 NEA ESP National Conference Sponsorship Opportunities

The NEA ESP National Conference is designed to grow and strengthen the professional excellence of ESP members working in pre-k through higher education through Association-convened, educator-led, and student-centered learning experiences. During this annual event, NEA also honors Education Support Professionals (ESP) at a banquet that celebrates nominees for NEA's ESP of the Year. The NEA ESP of the Year Awards Dinner is a cherished NEA affair that recognizes ESPs from around the country as essential members of the education team who meet the needs of every student. ESP Conference attendees not only get to participate in celebrating the ESP of the Year nominees but also engage in a wide variety of timely and relevant professional development opportunities made available throughout the conference.

ESP Conference sponsors directly support ESPs who clean and repair school buildings, transport students, provide instructional and other specialized supports, tend to students' health and safety needs, prepare and deliver nutritious meals, provide the technical infrastructure required for learning, and much more. ESPs work all hours of the day before, during, and after school. ESP Conference sponsorship contributions demonstrate a commitment to public education and a dedication to helping these ESPs receive quality professional supports, enabling them to enhance their ability to best support students.

The four levels of sponsorship are: Platinum, Gold, Silver, and Bronze.
