

February 23, 2026

United States Senate
Washington, DC 20510

Dear Senator:

I would like to personally thank you for opposing the current Fiscal Year 2026 funding bill for the Department of Homeland Security (DHS). I respectfully urge you to maintain your opposition as long as the bill fails to address serious concerns about the conduct of DHS—specifically, the deployment of federal agents from Immigration and Customs Enforcement (ICE) and Customs and Border Patrol (CBP) to instill fear and sow terror in our communities.

The current approach to immigration enforcement is traumatizing U.S. citizens and immigrants alike. Some students are so terrified they refuse to leave home and have stopped going to school. In states like Minnesota, Maine, and Ohio, the aggressive behavior of federal agents on or near school grounds has disrupted learning and eroded trust in public safety. Across the country, reports of racial profiling, illegal searches, and violent confrontations have undermined the basic premise that schools and community spaces should be safe and peaceful.

So far in 2026, at least eight people have died after being assaulted or detained by ICE or Border Patrol. In Minneapolis, for example, two U.S. citizens were fatally wounded by federal agents who also rushed to mischaracterize their deaths, raising additional questions about truthfulness and a lack of oversight.

Now is the time for meaningful reforms to prevent future violence and further disruption of daily life. Specifically, I urge you to support legislation that would:

- Immediately end the occupation of our communities by ICE and CBP agents
- Prohibit immigration enforcement activities at sensitive locations like schools, early childhood centers, bus stops, hospitals, and places of worship
- Require judicial warrants for immigration enforcement and rescind policies that allow warrantless operations
- Require DHS to cooperate fully with state and local investigations of serious incidents
- Require ICE and CBP agents to behave like other law enforcement officials—at a minimum, wear body cameras, take off the masks, and display identification

This is no longer solely an immigration issue. It has become a matter of human rights, civil rights, and the safety of our communities.

Sincerely,

A handwritten signature in black ink that reads "Rebecca S. Pringle". The signature is written in a cursive, flowing style.
